

FOR EVERY CHILD
IN DANGER

unicef
UNITED KINGDOM

LIONS CLUBS ARE THERE FOR THE CHILDREN OF EAST AFRICA

It's been over three months since famine was declared in parts of East Africa, affecting over 5.5 million children. **Thanks to your clubs' incredible support, Unicef has been able to provide life-saving food and clean water supplies for malnourished children, and prevent the spread of famine and diseases** throughout the region. Unicef won't stop until every child is safe, and your donations are absolutely vital as we continue to protect vulnerable children and families. Together you have helped provide:

11,000

EMERGENCY FOOD PACKETS

Life-saving peanut paste packets to nourish 11,000 severely malnourished children back to health.

263

FAMILY WATER KITS

Essential water and hygiene supplies that will last 263 families for one month.

31,900

VITAMIN SPRINKLES

Vitamin and mineral sachets to support children's physical and cognitive development for a whole year

THANK YOU!

On behalf of Unicef and the children affected by the East Africa famine, thank you for your help during this awful crisis.
